THE FUTURE OF WORK

What will the future of work be like?

Most experts agree that technology, especially AI and automation, is having a growing impact on the world of work.

As a result, the World Economic Forum expects that **69 million new** jobs will be created in the coming years.

Traditional career paths will be disrupted, and adaptability and technological skills are crucial.

Top skills in demand

CREATIVE THINKING

ANALYTICAL THINKING

**TECHNOLOGICAL
LITERACY**

ADAPTABILITY

SELF-EFFICACY

AI AND BIG DATA

Set some goals: Reskill and Upskill

Create a list of 3 skills where you could reskill and another 3 skills where you could upskill. Set a goal in terms of activities and timings for each of the skill.

Reskilling:

New skills you learn
for a new job

Upskilling:

Improving skills we
already have
